October, 2013

Dear friends

In addition to Josep Maria's letter explaining his new role as Honorary President of EASSE, I would like to take this opportunity to introduce myself and say what a privilege it is to have been appointed to this position.

Over the last few years, I have been lucky enough to work with Josep Maria on all the meetings and congresses. I will always appreciate his help in showing me how to organize these events, and especially our last congress in Lisbon.

I would like to express my deepest gratitude to him as founder and driving force of our Association, and I hope I can continue to count on his wisdom and experience in his new position as Honorary President of EASSE.

Thanks to him I have had the opportunity to get to know most of you and to be actively involved with the leading international figures in Single-Sex Education.

I have also been able to see at first hand the differences that exist in Single-Sex Education around the world, as well as the multiple reasons that have given rise to the different world associations.

With such a wide range of motivations to consider, we at EASSE are determined to contribute in a meaningful way in order to promote Single-Sex Education, throughout Europe, as a legitimate educational choice. We would also like to encourage studies and scientific research which will provide solid arguments in favor of this option, as well as ensuring that it is widely known.

With this in mind, we are working closely with the main International Single-Sex Associations, taking part in their activities, attending their forums and congresses. We are counting on the experience and contributions given by EASSE Schools.

Permit me to take this chance to ask you for your support with the 5th London EASSE Congress, 2015. As you have always done in the past, you can be of great help if you send us your experiences and papers. Our last two congresses, Warsaw and Lisbon, were invaluable not only in demonstrating the depth of research that has been carried out in the class in the last few years, but also in determining the road to follow both in the short and in the long term. We hope to reap the benefit of all this effort and dedication in London.

I am at your disposal for anything you may need and for any suggestions you may have.

Yours faithfully,

Ricardo Gay Ferriz
